BANANA FIBRE FABRICS

for Apparel, Workwear & Home Textiles

NordLoom supplies certified textile fabrics to global brands and manufacturers.

Banana fibre blended fabrics for Apparel, Workwear & Home Textiles to the Nordic and European markets, combining circular material innovation and Scandinavian design principles.

Our materials are developed using banana plant stem fibres, an agricultural by-product, transforming waste into durable, comfort, and environmental responsibility together for a greener future in fashion and home textiles.

NordLoom – Sweden based company with trusted manufacturing partnerships in India, our banana fibre content is certified sustainable materials for OEM and Private Label development.

OEM & PRIVATE LABEL SOLUTIONS

We partner with brands and manufacturers to co-create sustainable textile solutions through flexible product development and manufacturing.

WHY BANANA FIBRE?

AGRICULTURAL WASTE-BASED

Utilizing banana plant stem, an abundant agricultural by-product.

LESS VIRGIN COTTON

Reduces dependence on virgin resources.

BREATHABLE & COMFORTABLE

Natural fibre blends for all-day comfort.

DURABLE & STRONG

High strength and long-lasting performance.

CHEMICAL-FREE PROCESS

Eco-friendly fibre extraction and processing.

EASY TO MANUFACTURE

Compatible with conventional textile processes.

Our woven fabrics are developed using banana fibre blended with natural fibres such as cotton or linen, creating durable and environmentally responsible materials suitable for modern product design.

SUSTAINABILITY & CERTIFICATIONS

NordLoom materials are supported by internationally recognised sustainability and traceability programmes, including:

SGS VERIFIED BANANA FIBRE CONTENT

Independently verified banana fibre content.

ISCC PLUS

Supporting traceability and sustainable supply chains.

HIGG INDEX ALIGNMENT

Supporting responsible production and transparency.

LIFE CYCLE ASSESSMENT (LCA) VERIFICATION

Evaluating environmental impact across the product life cycle.

Together, these provide transparency, traceability, and support for responsible material sourcing.

OEM & PRIVATE LABEL

- Custom blends
- Custom GSM
- Custom colours
- Custom branding & packaging
